AWS Certified and Software Engineer, experienced in web development, dynamic and detail-oriented with a can-do attitude and aptitude for problem solving and a thorough knowledge and understanding of end-to-end SDLC and agile. I would like to find work relevant to my work experience. I am passionate about finding solutions to a varying number of challenges and have an excellent understanding of how the latest technologies can be used. I'm a quick learner and being flexible means, I can adjust in any environment.
